

VIPRE SITE MANAGER FOR ENDPOINT SECURITY

Cloud

MANAGE MORE CLIENTS, MORE EFFICIENTLY

VIPRE Site Manager provides MSPs a full-featured endpoint security solution with a centralized multi-tenant management portal for visibility across an entire client-base. Site Manager protects at the file, application and network layer, combining multiple layers of security with network- and application-agnostic DNS protection at no additional cost.

Increase Efficiencies and Reduce Overhead Cost

Client level reporting helps deliver greater value to your customers. Save time and reduce impact on resources with automated processes and malware determinations. Stay organized with simple monthly utility billing with provider usage reports. Demonstrate service value by delivering regular threat report summaries to clients.
